Qatar Exchange hereby informs you as follows:

As of January 7th 2013, QE will commence real-time calculation and dissemination of the QE Al Rayan Islamic Index.

The index reflects the price performance and dividend income of QE listed stocks (with minimum size and liquidity criteria) that are Shari'a compliant according to Al Rayan's Shari'a Supervisory Board. Qualifying stocks are ranked according to liquidity adjusted free float market capitalization and then a tiered-weighting methodology is applied where fixed allocations are assigned to individual sub-segments of the basket. These weights are fixed as of semi annual rebalance dates (1st trading day of April and October) but may fluctuate with price movement between those dates.

The index is total return based, reflecting dividend reinvestment and has been calculated back to January 2007
